

Long term maintenance

Modern day R packages

- ggplot2 - Data visualization
- testthat - Unit tests
- vdiffr - ggplot2 visualization
snapshot tests
- rlang - Helper methods
- cli - MUCH clearer
messages and errors
- roxygen2 - Documentation
- pkgdown - Website
- lifecycle - Portray the current
development state of
a function
- spelling - Spleling
- lintr - Code linting
- usethis - Developer setup and
integrations
- air - Code formatting

GGally

Success and Long-Haul Maintenance Strategies

- 15+ years old
- Multivariate data visualization
- Put your code into a package!
- Pick a package theme and stick to it!
